

CUSTOMISED DUCT SEALING TYPE SD

CUSTOMISED DUCT SEALING SOLUTIONS

When it comes to ceiling cables and pipes, one size doesn't fit all. Off-the-shelf solutions can lead to time-consuming adjustments and unnecessary costs.

At AC Cable Solutions, in partnership with Kraso GMBH of Germany, we specialise in providing customised mechanical duct seals tailored specifically to your needs.

WHY CHOOSE US?

- **Rapid Customisation:** We can customise duct seals within 24 hours.
- **Global Shipping:** Our products can be shipped anywhere in the world within 10 days.
- **Cost and Time Efficiency:** Our bespoke solutions save you both time and money.

HOW TO CREATE YOUR CUSTOM DUCT SEAL

To help us create the perfect duct seal for your application, please provide the following information:

TYPE OF OPENING:

- Is it a core hole or a duct cast into concrete?
- If a core hole: What is the outer diameter?
- If a duct: What is the inner diameter?

DUCT DETAILS:

- Is there an inner duct inside the core? If yes, is it smooth or ribbed?
- Does the plastic duct protrude from the back wall or is it flush with the wall?

CABLE/PIPE INFORMATION:

- What is the outer diameter of each cable or pipe?
- Can the cables or pipes be moved?

Pressure Requirement:

- What bar pressure is needed? 2.5 or 5.0 bar?

ADDITIONAL HELP:

If possible, please provide pictures of the ducts that need sealing.

Torque Rated Nut
Technology (No Torque
Wrench Required)

5 Bar Pressure
Resistant

Perfect For
